

Why our Youth Benefit from Internships

Internships provide students with an opportunity to learn more about potential career paths while fostering growth and a sense of hope. They gain skills and confidence and are encouraged to explore their dreams.

At the Northeast Gateway for Freedom Culinary Internship Program, we mentor youth to have proper work ethics, job readiness, help them keep their grades up, inspire fresh occupational ideas and character development, along with serving them daily nutritious meals to keep them healthy, mentoring them in culinary arts, serving etiquette and business management.

We aim to make our Internships a first class individual training for at-risk-inner-city youth. We offer monetary awards for their accomplishments. They are taken to dine at two restaurants to experience service in a mid to upper class restaurant setting. One at the beginning and one at the end for their awards dinner.
